TIMO GÜNTHER

Digital Humanities | Data & AI | IT Projects

timognth@icloud.com | guenthertimo.de | github.com/tig1795
Würzburg, Germany | relocating to Cologne

PROFILE

Consultant with around two and a half years of experience in SAP consulting (Integrated Business Planning): planning processes, data integration and client communication. Master's degree in Digital Humanities with a machine learning thesis (grade 1.0, the best German grade). Hands-on skills in Python, Pandas, Scikit-learn and PyTorch. Looking for a role where data, AI and IT projects serve a societal purpose, for example in research, the public sector or a non-profit.

WORK EXPERIENCE

Consultant SAP IBP

Feb 2024 - Sep 2026

TIVTAL GmbH, Würzburg | specialised SAP consultancy for supply chain planning

- Analysing planning processes (demand planning, supply planning, sales & operations planning, inventory planning), running client workshops and writing functional and solution concepts
- Designing and modelling planning areas, master data types, key figures, planning levels and aggregation/disaggregation logic
- Configuring and implementing SAP IBP modules, including planning views, dashboards and alerts, and setting up optimiser and heuristic methods
- Connecting source systems (SAP S/4HANA, ECC) via SAP Cloud Integration; modelling integration flows and mapping master and transactional data; REST API interfaces, e.g. to Salesforce
- Writing test cases, planning and supporting integration and user acceptance tests, including error analysis and fixing
- Key-user and end-user training, supporting go-lives and hypercare, and ongoing operations (application management, change requests, release upgrades)
- Automating recurring work: a Python program, developed with ChatGPT, that checks permissions between Excel and SAP, and a Claude skill, available to the whole team, that creates presentation-ready PowerPoint slides

Student Assistant

Dec 2018 - Jan 2024

Service Centre InterNational Transfer (International Office), University of Würzburg | 15-20 h/week

- Maintaining internationalisation databases and analysing and visualising data on student mobility and international exchange programmes
- Maintaining and updating the websites with the TYPO3 CMS, researching partner universities, handling enquiries and mobility applications
- Co-organising large international events, including the university's International Evening (around 3,000 attendees) and the annual conference of the CHARM-EU university alliance

Technical Advisor (working student)

Oct 2017 - Nov 2018

DTB Deutsche Technikberatung GmbH

- Personal customer advice, individual on-site training and technical support (installation, troubleshooting, setup)
- Independent analysis of clients' technology portfolios with practical recommendations; writing documentation and final reports

EDUCATION

M.A. Digital Humanities

2020 - 2023

University of Würzburg | final grade 1.6

- Master's thesis (grade 1.0): "Comparative Analysis of Data Sets and Feature Importance in Predicting Hit Songs", a machine learning study using XGBoost and Transformer-based NLP
- Focus areas included data modelling and databases (SQL); electives: human-computer interaction, usability

B.A. Digital Humanities and History 2015 - 2020
University of Würzburg | final grade 2.2

- Bachelor's thesis (grade 1.7): the elections in the Weimar Republic 1919 to 1933 and the influence of economic development on voting behaviour

Economics (no degree) 2014 - 2015
University of Würzburg

Abitur (German university entrance qualification), STEM track 2014
Hanns-Seidel-Gymnasium, Hösbach

PROJECTS (UNIVERSITY)

Usability comparison of two degree program websites (group project)
University of Würzburg | heuristic evaluation, cognitive walkthrough, user tests (AttrakDiff, UEQ)

- Compared the websites of the Media Communication and Human-Computer Systems programs from the students' perspective; took on much of the project organisation, including regular meetings with the supervisor

Functional prototype: a more user-friendly chefkoch.de
University project, Würzburg | PHP, JavaScript, CSS, SQL | github.com/tig1795/mcs_prttyp_chefk

- Website prototype with a database backend, including login, registration, search and recipe entry

Formula 1 website with usability evaluation
University project, Würzburg | PHP, JavaScript, CSS, SQL | github.com/tig1795/F1_dh_prjct

- Own website prototype, assessed with a heuristic evaluation following Nielsen, including severity ratings and proposed solutions

E-book: "Harry Potter and the Philosopher's Stone"
Seminar "Processing XML data", University of Würzburg | Python, XML, EPUB | github.com/tig1795/hrry_pttr_ebook

- Processed the novel's text with Python into XML and then into an EPUB, with several variants for presenting intertextual references

CERTIFICATIONS & TRAINING

SAP Certified - SAP Integrated Business Planning (exam C_IBP_2502) | issued 05/2025, valid until 04/2027

TYPO3 Basics (course with practical exercises, University of Würzburg Computing Centre) | 03/2021

SKILLS

Data science & programming: Python, SQL, Pandas, Scikit-learn, PyTorch, XGBoost, GitHub, Kaggle, SPSS

AI tools: ChatGPT, Claude (incl. skill development), AI-assisted programming in Python

SAP: SAP IBP (certified), SAP Cloud Integration (CI-DS), S/4HANA and ECC integration

Data & web: Databases, XML, EPUB, TYPO3 (CMS), HTML/CSS, PHP, JavaScript (basic), Java (basic)

Languages: German (native), English (B2+/C1), French (B1+)

VOLUNTEERING & INTERESTS

Tutor at Hanns-Seidel-Gymnasium | volunteer at Kommz Festival | Sportfreunde Sailauf (football club)

Football, gaming, motorsport, music
